Bearings 201

Bearing Application & Life Laboratory

IDC University's Bearings 201 course is a comprehensive, distributor-directed course examining the vast, yet sometimes overlooked subject of bearings. One of the most vital machine components, a single bearing failure can cost a corporation millions of dollars in maintenance and lost productivity. Premature failure of these crucial components can be prevented with the proper knowledge and training. IDC University's Bearings 201 course provides this essential knowledge and training.

Bearings 201 is a 2-day course that provides personalized training during each session. Instructors utilize customized lectures, special presentations, and hands-on activities. Students will acquire the tools to become well-versed in bearing applications and specifications. Information presented during this course can be applied to any bearing manufacturer. We understand that end-users demand multiple bearing sources, thus making it important to have a bearing knowledge base that is not brand specific.

Bearings 201

Bearing Application & Life Laboratory

Bearing Basics

A brief overview at the start of class will discuss bearing components and nomenclature which are the foundation of this course.

Bearing Maintenance

Students will learn proper storage and handling practices, as well as, correct mounting and lubrication techniques.

Bearing Failure

The causes of and solutions to many common bearing failures will be discussed.

Bearing Applications

In-depth, industry-specific information on the subjects of electric motors, pumps, gearboxes, and many other applications, including extreme environments and their unique challenges will be covered.

Life Laboratories

Students will participate in several hands-on labs. While this course is taught by engineers, it is not necessary to be an engineer to understand the material.

REGISTRATION INFORMATION

4 Easy Ways to Register:

► On-line

www.IDCuniversity.com

► By Phone

1-317-308-4527

► By Fax

1-317-244-4600

► By Mail

Complete and mail enrollment form to:
IDC University
P.O. Box 42428
Indianapolis, IN 46242

Whatever your method of registration, be sure to enroll right away since space is limited.

Payment Information

- Check enclosed (payable to IDC-USA)
- Check mailed after faxing registration
- Please invoice us (IDC Member-Owners only)

Bearings 201 Course

\$400 per person (includes course & materials)

\$375 for PTDA Members

\$350 for IDC Preferred Supply Partners

\$300 for IDC Member-Owners
